MINISTER ANGEL MEYERS  
 MINISTRY OF PUBLIC HOUSING, SPATIAL PLANNING,  
 ENVIRONMENT AND INFRASTRUCTURE

MAY 2016  
 ISSUE 3

## SPECIAL POINTS OF INTEREST:

- **GEBE**
- **Frontstreet Repairs**
- **Garbage Collectors**

The emergency repairs of Front street has been completed.

The repairs commenced on April 10, 2016 and has been completed in time for the Grand Carnival parade to run smoothly on Sunday May 1, 2016.

The project was financed by the Ministry of TEATT and coordinated by the Ministry of VROMI. The road works was carried out by Windward Roads.

The Ministry would like to thank the businesses and the residence of Frontstreet for their patience and cooperation.

Discussions for the second phase of the repairs for Fronstreet and Backstreet are still undergoing.

# NV GEBE of High Priority

The Shareholder (Government) is taking the necessary steps to get GEBE organizational structure back in place. In the past months GEBE has been expressing their grievances with the Supervisory Board, and the operations within the company.

Firstly Government has tarnished the contract with the Supervisory Board. The process have already begun to have a new Supervisory Board instated. The supervisory board is put in place to execute the initiatives placed by the Shareholder/ Government which is why according government it is very essential to instate the right persons in that position.

The seven candidates government submitted to replace the board were all approved;

- Oral Gibbes
- Tazio Bervoets
- Agnes Monte

- Romeo Pantophlet
- Sandy Offringa
- Roy Marlin
- Patrice Gumbs

William Brooks and Veronica Jansen-Webster are the candidates for the two top positions in GEBE, CEO and COO.

On Tuesday January 15, 2016 the staff of GEBE was invited to meet with Honorable Minister Meyers and Parliamentarian Maurice Lake. There the employees got an update on the matters relating to the organization and also got the opportunity to pose any questions.

On Friday April 15, 2016 the Minister took a tour of the GEBE power plant, distribution building and main build-

ing to get a better understanding of how the organization operates. The tour was guided by the GEBE power plant manager Mr. Kenrick Chittick.

Mr. Chittick showed the Minister the five buildings where 19 engines are situated. Of the 19 engines, 6 are not operational. Of the six, two engines are on standby, 2 are awaiting repair and the last two have been there since 1987 and are to be broken down and shipped out. In addition Engine #20 will arrive on the island later this year and is expected to be operational by December 2016. The Minister also received some explanation regarding the operations on the plant, the technical equipment used,

future goals and some difficulties the power plant are facing.

The Minister was surprised at the conditions the GEBE plant employees work under and the sacrifices they make. The Minister applauds and appreciates their efforts and hard work.

Mr. Chittick expressed his appreciation for the fact that Minister Meyers is the first Minister in years to show interest in the operations of the GEBE power plant, located in the Cay Bay area.
