e-mail to vaccination@sintmaartengov.org

If you have side effect after you vaccination, please report them using this link:
https://onlineservices.sintmaartengov.org/covidsideeffects/

Why should I get vaccinated?

Travel? Carnival?

Stop the spread

Protect Yourself

Economic Recovery (Tourists)

Protect Loved Ones

Celebrity X Cruises®

St. Maarten Medical Center

Social & Health Insurances
The Covid-19 Virus needs a host to survive. Without a host (a human body) to live in, it will die.

It jumps from person to person until it finds the vulnerable within our community. 80% has very mild symptoms.

What happens if enough get vaccinated?

We form a protective wall around the vulnerable person.

Which means that:

The virus can’t jump & dies out.
We stop the spread!

By taking the vaccine you

Protect yourself. Reduce the chance of infection with 95%
Protect your loved ones by reducing the chance of infecting others with 95%
Help stop the spread of Covid-19
Which means

Economic recovery & jobs
Travel again
Carnival!

The masss vaccination ends on July 31st 2021. After that the Pfizer vaccine or free administering can’t be guaranteed.
